

Name the features of a mountain landscape.

Understand that bulge mountains are formed from areas of high pressure causing the crust to dome upwards.

Name and locate Pyrenees, Carpathians, Balkans, Apennines and Ural mountain ranges of Europe.

Mountains of the world

Understand that fold mountains are formed when tectonic plates collide.

Understand the difficulties associated of living on/next to mountainous landscapes.

Understand how weather is affected by altitude and typical weather on mountains.

How to help at home:

- Visit the library to borrow books to support your learning.
- Use the internet to research into our topic.
- Collect and bring in interesting articles and pictures you come across.

We will be reading 'Running on the roof of the world' by Jess Butterworth as our class book.
